

Atopen plus Tablet

Paracetamol BP 500 mg & Caffeine USP 65 mg

Composition:

Atopen Plus Tablet : Each tablet contains Paracetamol BP 500 mg & Caffeine USP 65 mg.

Description :

Atopen Plus is a combination of Paracetamol and Caffeine. Paracetamol has analgesic and antipyretic properties with anti-inflammatory effect. This combination changes the physicochemical properties of Paracetamol and increases the aqueous. For this reason, the absorption of Paracetamol increases which reduces pain and fever quickly.

Indication :

Atopen Plus is a mild analgesic and anti-pyretic formulated to give extra pain relief.

Fever : Common fever, high fever.

Pain : Headache, migraine, muscle aches, toothache, rheumatic pain, backache, dysmenorrhoea, neuralgia and relief of the symptoms of colds, influenza and sore throat.

Dosage and administration :

Adults : 1-2 tablets three to four times daily.

Children over 12 years of age : 1-2 tablets three to four times daily.

Children under 12 years of age : Not recommended.

Or, as directed by the physicians.

Contraindication :

Paracetamol and Caffeine is contraindicated in patients who have shown hypersensitivity to the drug or any other constituents.

Side effects :

Recommended doses are usually free from side effects.

However, skin reactions such as urticaria may occur.

Drug interaction :

The speed of absorption of Paracetamol may be increased by metoclopramide or domperidone and absorption reduced by cholestyramine. The anticoagulant effect of warfarin and other coumarins may be enhanced by prolonged regular daily use of Paracetamol with increased risk of bleeding; occasional doses have no significant effect.

Pharmaceutical precaution :

Keep in a cool and dry place, protected from light. Keep away from children.

Packing :

Atopen Plus Tablet : Each box contains 10 X 10 tablets in blister pack.
